

Unlock a new way to bank with the Nedbank Business Hub app

The Nedbank Business Hub promise

We keep our clients at the centre of everything we do. With the Nedbank Business Hub, users can do all their business banking online, in 1 place, with a single login.

The NBH app gives you a consistent experience to view, transact and authorise directly from your mobile device.

Key benefits of the NBH app

Convenient banking

Single app to manage and authorise transactions with a built-in authenticator app to secure user web login.

Secured authentication

Ability to authenticate your profile during login anywhere through facial recognition or your PIN.

Quick and easy access to services on the go

Ability to access statements and proof of accounts, etc, based on user access rights.

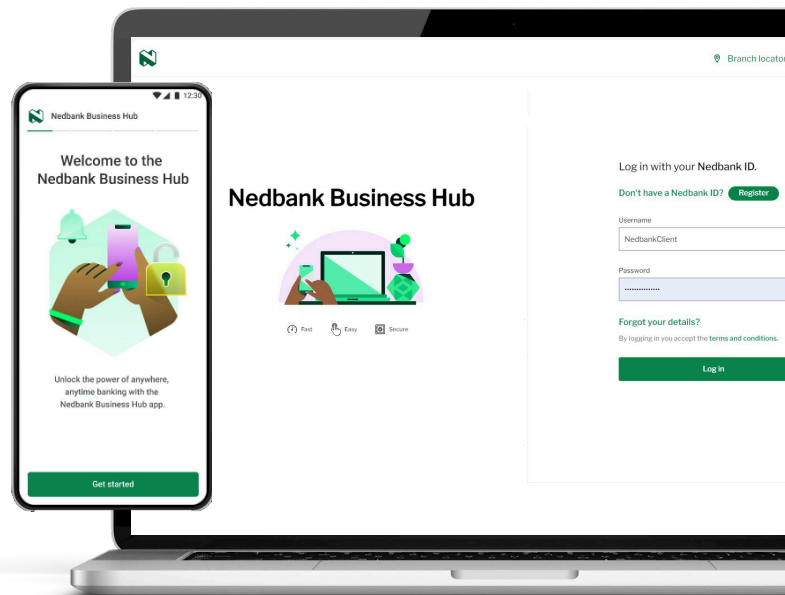

Switch between profiles and businesses

You can easily switch context in 1 session without needing to log in to another profile.

How to register and sign in to NBH app

1. **Download** the NBH app from Google Play, App Store. or Huawei AppGallery.
2. **Log in to** the app.
3. Select **Settings**.
4. Follow the easy instructions on the app **to scan the QR code** from NBH on your desktop.
5. **Scan** your face by taking a selfie.
6. Set up your app PIN (for safety).
7. Read and accept the terms and conditions.

NEDBANK

Do more on the NBH app with some dynamic features

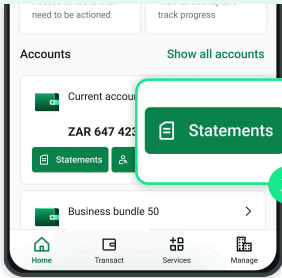

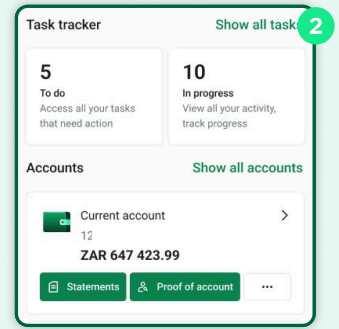

1 NEW Comprehensive overview

Dashboard page offers a snapshot of linked accounts, displaying balances and recent activities.

NEW Task tracker

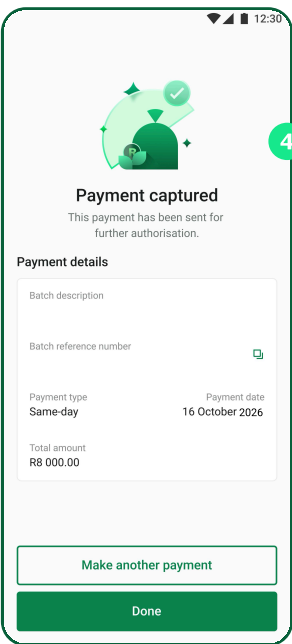

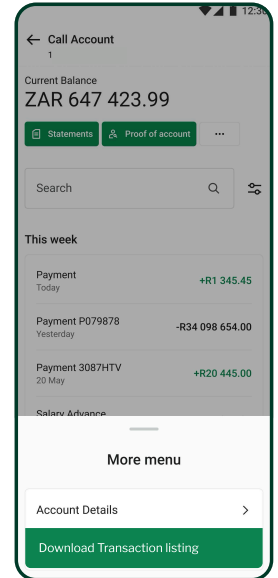

Positioned prominently at the top, this widget highlights pending tasks with clear indicators for **To do** and **In progress** items. Users can quickly see what actions require their attention, ensuring critical tasks are not overlooked.

Task tracker enables users to authorise users, payments, transfers, beneficiaries and collectees.

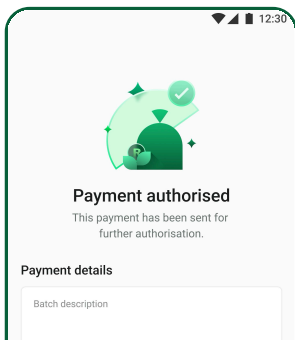

3 NEW Quick action buttons

Contextual high-value actions, such as **account statements**, **proof of account** and the ability to **download account transaction lists** are displayed based on user access rights. These buttons provide 1-click access to features, streamlining user interactions.

4

Capture and authorise payments with ease

The NBH app enables you to capture and authorise payments to new and existing beneficiaries, transfers and collections from your device in 1 seamless process.

Features to note ENHANCED
