Key overnight factors and upcoming events this week

Nedbank CIB Market Commentary | CIBMarketComm@Nedbank.co.za | +27 11 294 1753

Date	Region	Event   	Actual/expected/prior	Implications
05/06	SA	GDP q/q SAAR	--/0.5%/3.1%	Contraction won't surprise us as most primary and secondary industries contracted or remained very weak over the quarter – Q1 tends to be the weakest quarter in the year, and given the high base in 4Q17, a sharp slowdown can be expected
06/06	SA	SACCI Business confidence	--/--/96	Business confidence is expected to remain stable in May, however rand weakness and some easing in trade activity may weigh on sentiment
07/06	SA	Manufacturing production	--/1.1%/-1.3%	Manufacturing output is expected to recover marginally in Q2
07/06	EZ	GDP q/q	--/0.4%/0.4%	GDP growth estimate likely to remain unchanged but well below 0.7% recorded in 4Q17

Foreign flows

Nedbank CIB Market Commentary | CIBMarketComm@Nedbank.co.za | +27 11 294 1753

- The month of May 2018 had seen the biggest outflow of foreign capital ever recorded, with R50 billion net outflows, of which R30 billion was out of the bond market and the remaining R20 billion outflows came from equities.
- The global risk-off sentiment had resulted in a sell-off of emerging market assets in general in May; however we have seen local price action fairly contained despite the sharp outflow. The local markets had been fairly resilient in absorbing the massive outflow from foreign investors.
- However, the smaller net YTD inflows of just R6.7 billion would imply higher external vulnerabilities in that a current account deficit and budget deficits will still need to be financed in some way. This could imply a fairly cautious SARB and focus on debt to plug the deficit gap if flows do not recover into year-end.
