SNIPPETS

(Fixed Income)	SAGB yield curve bull steepens as front-end rallies further, markets continue to price in more monetary stimulus from the SARB, back-end yields marginally lower as fiscal risks remains a worry
(Currencies)	Local focus on SAA
(Commodities)	Oil fell to its lowest in more than two decades; Gold dropped for a second day
(Equities)	Global stocks are mixed as investors prepared for a dour earnings season in the US

KEY OVERNIGHT FACTORS AND UPCOMING EVENTS THIS WEEK

Nedbank CIB Market Commentary | CIBMarketComm@Nedbank.co.za | +27 11 537 4091

Date	Region	Event	Actual/expected/prior	Implications
04/21	SA	Leading index	--/101.5/103.5	Leading index likely to decline, reflecting weaker economic activity in future
04/22	SA	CPI	--/--/4.6%	SA CPI likely to fall sharply in March as a result of fuel price reduction
04/22	UK	CPI	--/1.5%/1.7%	Lower energy and fuel costs likely to weigh on global inflation
04/23	Global	Manufacturing PMI - preliminary	--	Preliminary PMIs for April suggest further decline in manufacturing activity in most parts of the world following lockdowns
04/24	UK	Retail sales	--/-5.0%/0.0%	Retail activity subdued as a result of restricted movement of people amid COVID-19

Business Banking FX | +27 11 535 4003 | Corporate FX | +2711 535 4002 | Institutional FX | +2711 535 4005

- The final session of the week saw the rand open the session trading marginally below the 18.7000 level. In what proved to be another lacklustre session, the rand was confined to a range between 18.6100 and 18.9240. The local unit was under pressure again going into the close of the session, and this scenario continued into the New York session, although it only traded into the low 18.90s. This morning, the rand is currently trading at 18.8000, the EURZAR is trading at 20.4355 and the GBPZAR is trading at 24.4470.
- The international markets were similarly confined to limited trading ranges, with the EURUSD trading between 1.0814 and 1.0888, this morning currently trading at 1.0868. The GBPUSD traded between 1.2413 and 1.2524, currently trading at 1.2474.
- Gold traded back from the highs posted earlier in the week, ending the week trading at 1,696.50; since that time, it has lost further ground, to currently trade at 1,682.50.
- Data releases scheduled for today: no local releases, but Cabinet will be meeting to discuss the key priorities in the economic recovery plan; from Europe, we have German PPI and the trade balance for the EU; and from the US, we have the Chicago Fed Index.
- The rand has thus far in the session held steady, despite oil continuing on its declining trajectory. The UK and the EU continue negotiating a post-Brexit agreement. and the public enterprises minister will brief Cabinet on the fate of SAA today.
- Possible trading range for the rand today: 18.4000 to 19.1000

- Oil extended its slide, falling to the lowest in more than two decades, on concern the world is rapidly running out of places to store crude after output cuts proved insufficient to cope with plunging demand. Futures fell 15% to less than \$16 a barrel after losing almost a fifth of their value last week.
- Gold dropped for a second day as further signs that the spread of the coronavirus was being contained damped demand for the haven asset. Spot gold - 0.3% to \$1,677.69/oz; 2% on Friday. Silver -0.2% to \$15.1411/oz. Platinum -0.5% to \$772.76/oz. Palladium +1.6% to \$2,199.95/oz. LME Aluminium up 0.80% at \$1,518, Copper up 0.56% at \$5,238. Zinc up 0.44% at \$1,959 while Lead down 0.21 at \$1,674.

Cash equities | +2711 535 4030/31

South Africa

- Top40 +1.96%. The world is a better place, apparently, despite countries such as Spain reporting new highs in cases. SA drifted lower in the afternoon; despite this, we were better buyers of the diversified industrials, telcos and food producers, selling healthcare and oil. Best of the ZAR hedges: AGL+5.5%; BHP +5.2%; BTI +1.6%; CFR +4.2%; MNP +5.5%, OMU +5.4%; QLT +4.3%; S32 +6%. MEDICLINIC: closed -4%. Trading update a small miss vs guidance in UAE and CHF, SA in line. Plans in place to protect balance sheet – suspending divvy, no forward guidance. Sold off along with NTC and LHC during the afternoon session. Worth noting: turnover ZAR23bn. Main crosses: 1m NHM; 2.5m and 1m MCG; 500k and 300k REM; 850k SLM. CHINA'S ECONOMY CONTRACTS FOR FIRST TIME SINCE AT LEAST 1992, 1Q GDP -6.8% y/y; est. -6%.

UK/Europe

- European shares gained ground for a second straight week for the first time since the coronavirus crisis began in February, lifted by expectations that a number of countries could start easing lockdowns and on hopes of medical progress to fight the pandemic. The Stoxx 600 rose 2.6%, with the gauge just shy of a 20% rise from its low on 18 March. All industry groups advanced, led by travel and leisure stocks (+6.5%). Euro Stoxx 50 up 2.7%, FTSE 100 up 2.8%, DAX up 3.1%, CAC 40 up 3.4%, FTSEMIB up 1.7%, IBEX 35 up 1.7%, AEX Index up 2.0%, Swiss Market Index up 1.8%.

USA

- US stocks climbed as tentative steps towards restarting the economy helped investors look past mixed earnings and dismal economic data from China. S&P up 2.68%. Dow gained 2.99%. Nasdaq advanced 1.38%. VIX at 39.15. House Speaker Nancy Pelosi and Treasury Secretary Steven Mnuchin were optimistic about reaching a deal to top up funds in a loan programme aimed at helping small businesses stay afloat.

Asia

- Stocks were mixed, while the USD strengthened in trading Monday as investors prepared for a dour earnings season, while keeping an eye on tentative signs that coronavirus infection rates are decelerating in some countries. Crude oil prices collapsed anew, with West Texas Intermediate crude plunging below USD16 a barrel to the lowest level since 2001. The Bloomberg Dollar Spot Index recouped some of its declines from Friday, while Treasuries were largely flat. Australian and Japanese stocks saw the biggest declines among major Asia-Pacific markets, while Chinese and Korean indices outperformed.
